W.H. Archer, Esq.,

My dear Sir William,

I am sending you by this post the first instalment of the result of my travels in the East which is a paper on the Volcano of Taal extracted from the proceedings of the Linnean Society of N.S.W[ii] and, when it doth appear good to you, would you kindly give me a notice as I have had extra copies printed and wish to sell them. Send me a paper in which your article is published as I don't see the Melbourne journals. I am too busy with proof-sheets[iii] just now to write at any length.

My health or rather my bad health continues much the same.

Yours faithfully,

J.E. Tenison-Woods
My best love and blessing to
Mrs. Archer and Gracie
